

Guidelines for a Super Fun Summer Camp!

I am so excited that you are joining me for the Julia on the Edge Summer Camp Series! In order to have the most fun possible, we need to all agree to a few things. Your parents and caregivers have a whole list of information about sunscreen, bug spray, medications, and all of those kinds of things, but these guidelines are just for you! Let's all make an agreement to follow these guidelines so we can have a ton of fun!

- I will be respectful of other kids, adults, animals, and myself including others' property. This means using kind words, not making fun of others, not taking things or damaging things that belong to others, and following directions.
- I will follow rules that are given. Sometimes we need rules to keep us healthy and safe. Our different activities may have certain rules. It is important that we follow those rules to keep ourselves and others safe.
- I agree to participate in activities and to try foods that I may not have tried before or may have not liked before. Participating in these things will help me have more fun at camp!
- I will be gentle with the dogs and any other animals. I will not feed them anything that Julia does not approve of first.
- I will put my cell phone away in the cell phone basket or in my backpack during camp. I will ask Julia before I get it out. I know that I will only need my cell phone for taking pictures or to contact a parent if I really need to.
- I will let Julia know immediately if I feel sick.
- I know that I may get wet or dirty, and that it is ok!
- I am going to have so much fun!!
